

Road to Recovery Transportation for Cancer Patients

Age Requirements

No Age Requirement

Available 24/7

No

Documents Required

Call for details

Other Eligibility Criteria

Open to cancer patients. Patients must have a cancer diagnosis and be traveling for a cancer-related medical appointment. Other eligibility requirements may be needed per location.

Intake Process

Call the National Cancer Information Center Toll-free number 800-227-2345 and provide your zip code. A specialist will check to verify that a Road to Recovery Transportation program is available in that area and will take your information. Call at least four business days in advance, so a volunteer driver can be found.

The American Cancer Society's Road to Recovery program provides transportation to and from treatment for people who have cancer and do not have a ride or are unable to drive themselves. Volunteer drivers donate their time and the use of their cars so that patients can receive the life-saving treatments they need.

Patients must be traveling to a cancer-related medical appointment. Other eligibility requirements may apply. For example, a caregiver may need to accompany a patient who cannot walk without help or is under age 18. Specific requirements may change per availability in areas.

It can take several business days to coordinate your ride, so please call (800) 227-2345 well in advance of your appointment date to find a ride near you!
