English

This program provides a one-stop online resource for businesses to start or expand a formal telework program. By allowing employees to perform some or all of their duties from home, companies can help reduce traffic congestion, improve air quality, and create a flexible and competitive workplace. Many businesses

experience bottom-line benefits from a telework program. This doesn't mean employees work from home every day. One day a week or two days a month can be a big benefit to businesses and employees.

Service Area(s)

Statewide
