The Weatherization program is designed to reduce the cost of heating and cooling homes in order to make them more energy-efficient. The Weatherization Assistance Program provides funds to reduce the heating and cooling costs for low-income families, and to ensure their health and safety. Priority is given to the elderly, individuals with disabilities, and families with children.

Insulation and energy conservation services for owners and renters of mobile or standard homes to reduce their energy costs. Homeowners benefit from decreased heating expenses by energy audit using state-of-the-art techniques and diagnostic tools. Installation of energy improvements includes: blown-in wall insulation, attic insulation, ductwork, caulking, weather-stripping, water heater insulation, window, and door repairs or installing new heat sources.

Accessibility: Fully handicapped accessible.
