Alcon Cares - U.S. Patient Assistance. Offers a voluntary public service program that provides medication to qualified individuals at no charge. Each request is subject to approval and fulfillment is based upon current available resources.

Full Assistance with Glaucoma medications for eligible patients. The program has provided glaucoma drugs free of charge to patients who could not afford these sight-saving medications. This program also donates pharmaceuticals and over-the-

counter products to assist patients who could not otherwise afford the products to treat eye diseases other than glaucoma and extreme dry eye.
