Orthopedic services are provided to individuals who have an injury or illness involving the musculoskeletal system: bones, joints, the spine, or soft tissue injuries such as muscles, ligaments, tendons, and nerves. Successful orthopedic management depends upon the prompt and accurate diagnosis and treatment of the

condition, and sometimes involves a period of recovery and rehabilitation which is facilitated and shortened by professional supervision.

Treatment and Services:

- physical therapy
- occupational therapy
- knee pain
- sports medicine
- arthroscopy
- shoulder
