Orange Family Dentistry offers comprehensive esthetic dental care, including Oral Conscious Sedation. Staff will stress importance of healthy gums and teeth that

function in harmony with the muscles of the neck and head, as well as the jaw (TMJ).

Dental services include periodontal care (gum disease); restorative care (fillings, inlays, crowns); oral surgery (extractions); root canals; bridgework; implants; dentures; cosmetic dentistry; treatment of TMJ; and more

Services may also include nutritional counseling, home care instructions, patient education and consultation with family physicians, etc.

This office has experience providing dental care to individuals with memory loss.

Service Area(s)

Orange County
