Mobility Options provides transportation to seniors and people with disabilities throughout Planning District 16. Mobility Options will match riders with existing routes and services provided by human services agencies in the region. In addition, trips are purchased by Mobility Options from private and public paratransit providers. Transportation may be available for non-emergency medical appointments, essential grocery shopping trips, and formal social or recreational programs (excluding Healthy Generations Senior Cafes).

Mobility Options provides between two to three trips a month for an individual on a first come first serve basis. Special considerations are made for trip requests to places of employment, training, or education. Alternative sources such as public transit or a Medicaid transportation benefit should be used before making a Trip Request.
