Virginia Department of Motor Vehicles (DMV) offers parking placards and plates for customers with temporary or permanent disabilities that limit or impair their mobility. They are also available to customers with a condition that creates a safety concern while walking (examples are Alzheimer's disease, blindness or developmental amentia).

The placards and plates entitle the holder to park in a special parking space reserved for individuals with disabilities. To apply for a disability parking placard or license plate, you must complete and submit a completed disability Parking Plates or Placard Application (MED10). You can submit your application by mail or in person at any DMV customer service center.
