Runk and Pratt of Forest is unique because it offers essential memory care for residents living with Alzheimer's Disease. Designed for an open feel, residents may choose to visit anywhere within the building, actively enjoying any of the three enclosed courtyards or greenhouses. Capacity is 84.

The facility in Forest was designed and built specifically for those with Alzheimer's or other dementia. This residence creates a home-like environment that helps to minimize the confusion and agitation that often accompanies these illnesses.

This is a secured residence with locked delayed egress exit doors for the security of each resident. Each of the hallways is coded to give visual cues to residents, allowing them to move about freely and independently. This security allows families to enjoy peace of mind knowing that their loved one is living in an environment that fosters their independence, nurtures their self-esteem, and overall maximizes their quality of life.

Service Area(s)

Bedford County
