Formerly known as Blue Ridge NursingTherapy Center, Blue Ridge Therapy Connection offers skilled nursing care, including wound care, cardiac care, cancer, diabetes and more. In addition to round-the-clock skilled nursing and personal assistance, residents enjoy stimulating social, educational and recreational activities, restaurant-style dining, comfortable accommodations, and full amenities, in a comfortable home-like setting.

Inpatient rehabilitation program combines physical, occupational, and speech therapies with a transitional care model to provide the full continuum of care. Our therapy connection features a separate therapy community entrance, private rooms, and a family gazebo picnic area. The inpatient rehabilitation rooms are all private suites with TV, Cable, WI-FI, and phone.

Therapy Connection is ideal for post operative care or traditional strength and endurance training. The program promotes support and encouragement from families for a smooth and quick transition back home. Other health services are also available on the campus.
