The Evergreen provides comfort care for individuals living with mild to moderate levels of memory impairment due to dementia, including Alzheimer's. This program is designed to maintain and improve quality of life with stimulating activities, socialization, and lifestyle support in a secure residential atmosphere.

Services help residents to live as independently as possible while aiding with the daily tasks they find difficult to accomplish. Wellness and fitness programs help residents remain physically active. There are off-campus outings and onsite projects that encourage individuals to live life to their fullest potential.

Call for more information.
