Johns Hopkins Hospital and Johns Hopkins Bayview Medical Center offer care designed to diagnose and treat memory disorders. Programs focus on:

- Alzheimer's disease,
- Frontotemporal dementia,
- Huntington's disease,
- Normal Pressure Hydrocephalus,
- Stroke and related vascular conditions.

Each of these programs is led by a clinician with many years of experience in clinical care. Wherever possible, the care is multidisciplinary, involving clinicians from the Departments of Neurology, Psychiatry, and Geriatric Medicine.

Patients outside the state of Maryland may request appointments by calling (410) 464-6713 (toll-free) or [requesting an appointment](#) thru the website.

Maryland patients may request appointments by calling:

- Adult Neurology: (410) 955-9441,
- Pediatric Neurology: (410) 955-4259,
- Adult Neurosurgery: (410) 955-6406,
- Pediatric Neurosurgery: (410) 955-7337.
