

Overwhelmed by all the technology options for caregivers?

VirginiaNavigator's Caregiver Tech Tool Finder gives you independent, unbiased recommendations for the best caregiving apps, devices and other tech.

All offerings listed in the tool have received high ratings for:

- ease of use
- meeting caregiver needs
- having reasonable costs (if any purchases are required)
- being recommended by family caregivers. (VirginiaNavigator receives no compensation for making recommendations)

We invite companies and organizations to [submit their products for review](#) by our expert panel. With caregiving technology changing so rapidly, we continue to assess new offerings as they become available!

VirginiaNavigator works with state and national partners (including AARP) and experts on aging to maintain a curated list of caregiving tech resources.
